DEPOSIT ACCOUNT INFORMATION

IN CASE OF ERRORS OR QUESTIONS ABOUT YOUR ELECTRONIC TRANSFERS

Please call or write us at the phone number or address on the front side of this statement as soon as you can if you think your statement or receipt is wrong or if you need more information about a transfer or receipt. We must hear from you no later than sixty (60) days after we sent the FIRST statement on which the problem or error appeared.

1. Tell us your name and account number.
2. Describe the error on the transfer you are unsure about and explain, as clearly as you can, why you believe it is an error or why you need more information.
3. Tell us the dollar amount of the suspected error.

We will investigate your complaint and will correct any error promptly. If we take more than ten (10) business days (or 20 business days for point of sale or foreign-initiated transactions) to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes to complete our investigation.

LINE OF CREDIT INFORMATION  
(Disregard if you do not have a Line of Credit)

HOW FINANCE CHARGES ARE COMPUTED

DAILY BALANCE METHOD (including current transactions). To get daily balances we take the beginning balance of your account each day, add any new loans and subtract any payments or credits. Then, we multiply the daily balance each day of the statement period (excluding the last statement date but including the current statement date) by the appropriate daily periodic rates. We then add up all of these daily finance charges to get your total finance charge. Daily periodic rates may vary.

IN CASE OF ERRORS OR INQUIRIES ABOUT YOUR BILL

If you think your bill is wrong, or if you need more information about a transaction on your bill, send your inquiry in writing, on a separate sheet, to the address shown on your statement as soon as possible. We must hear from you no later than 60 days after the bill was mailed to you. You can telephone us, but doing so will not preserve your rights. In your letter, give us the following information:

1. Your name and account number.
2. The dollar amount of the suspected error, and
3. A description of the error and why (to the extent you can explain) you believe it is an error. If you need more information, describe the item you are unsure about.

If you have authorized the Bank to automatically pay your bill from your checking or savings account, you can stop payment on any amount you think is wrong by mailing your notice so that the Bank receives it three (3) business days before the payment is scheduled to occur. You remain obligated to pay the parts of your bill not in dispute, but you do not have to pay any amount in dispute during the time the Bank is resolving the dispute. During that same time, the Bank may not take action to collect disputed amounts or report disputed amounts as delinquent.

**Harland Clarke, one of the nation's leading financial service providers, helps reduce the risk of counterfeit documents with our Smart Document Series™, an economical security strategy designed to combat fraud where it starts.**

## Security features are your first line of defense.

Our Smart Document Series™ official documents contain multiple security features to help your employees detect counterfeiting. Plus, our formats, styles and colors offer your institution maximum flexibility.

Choose our Hologram Smart Documents which have at least 10 tamper-evident features, including an authentic hologram stripe that's virtually impossible to reproduce or copy.

### Hologram Smart Document

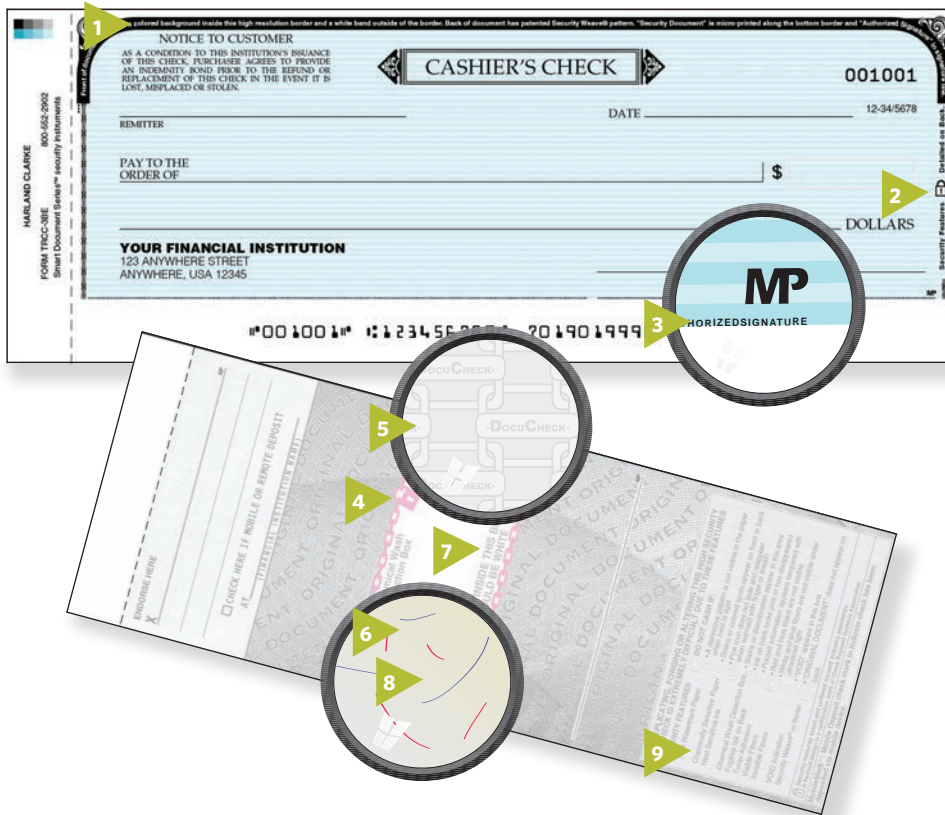

- 1 Authentic Hologram**  
 Harland Clarke's custom HoloStripe™ security feature provides a reflective, three-dimensional appearance that is easy to verify with the human eye, yet impossible to reproduce by ordinary copying or printing.
- 2 Prismatic Background Colors**  
 Attractive prismatic background pattern deters computer fraud and colors distort when copied.
- 3 Interlocking Background Pattern**  
 Our interlocking step-and-repeat background pattern distorts when copied.
- 4 Padlock Icon**  
 Padlock Icon indicates document meets ANSI security guidelines. It also directs readers to the back of the check for a list of security features.
- 5 Micro-Print Signature Line**  
 The micro-print signature line reads "AUTHORIZED SIGNATURE," but when reproduced, type appears as a broken line.
- 6 Security Inks**  
 Tamper-resistant security inks and pastel colors guard against the use of solvents and color copying. Harland Clarke documents are made using special solvent-reactive inks that dissolve on contact with organic solvents.
- 7 Fourdrinier Watermark Stock**  
 A true watermark shows a negative image in reflected light and a positive image in transmitted light; virtually impossible to fraudulently reproduce.
- 8 Heat Sensitive Ink**  
 The back of each document contains a visible padlock with heat sensitive ink that will change color when rubbed.
- 9 Visible and Invisible Fibers**  
 Visible fibers are randomly embedded into the paper making duplication difficult. Invisible fibers can be seen under a blacklight.
- 10 Chemical-Reactant Stains**  
 Stains react with common chemicals to readily show tampering.
- 11 UV Dull**  
 Low reflectance in UV light minimizes interference with fluorescent printed features and optical reading.
- 12 Security Checklist**  
 Itemized review of features alerts your employees to security characteristics of the document.

To learn more,  
 contact Harland Clarke  
 at **1.800.552.2902.**

# Traditional Smart Document Series™

Our Traditional Official Documents offer multiple security features for your protection.

## Traditional Smart Document

**1 High Resolution Border**  
Detailed border distorts when copied, making it apparent to your employees that tampering has occurred. Also acts as an itemized checklist of security features.

**2 Padlock Icon**  
Padlock Icon indicates document meets ANSI security guidelines. It also directs readers to the back of the check for a list of security features.

**3 Micro-Print Signature Line**  
The micro-print signature line reads "AUTHORIZED SIGNATURE," but when reproduced, type appears as a broken line.

**4 Security Seal**  
The back of each document contains a visible Security Heat Seal that will change color when rubbed.

**5 Fourdrinier Watermark Stock**  
A true watermark shows a negative image in reflected light and a positive image in transmitted light; virtually impossible to fraudulently reproduce.

**6 Visible and Invisible Fibers**  
Visible fibers are randomly embedded into the paper making duplication difficult. Invisible fibers can be seen under a blacklight.

**7 Chemical-Reactant Stains**  
Stains react with common chemicals to readily show tampering.

**8 UV Dull**  
Low reflectance in UV light minimizes interference with fluorescent printed features and optical reading.

**9 Security Checklist**  
Itemized review of features alerts your employees to security characteristics of the document.

Harland Clarke offers a variety of document styles including...

- |                   |                       |                 |
|-------------------|-----------------------|-----------------|
| Cashier's Checks  | Personal Money Orders | Dividend Checks |
| Bank Money Orders | Official Checks       | Interest Checks |
| Expense Checks    | Loan Checks           | Loan Proceeds   |

Additional selections available. Call 800-552-2902 for more information.

Available in three colors.

# Laser Checks

Standard Laser Checks are available in check top, middle or bottom.  
No imprints, no numbering. Available with 3 1/2" or 3 2/3" perforations.

Green Linen

Reflex Blue Marble

All check styles may not be available and are subject to change without notice.

### 3 1/2" Check Style Perforations

Check Top: 3 1/2" and 7"

Check Middle: 3 1/2" and 7"

Check Bottom: 4" and 7 1/2"

### 3 2/3" Check Style Perforations

Check Top: 3 2/3" and 7 1/3"

Check Middle: 3 2/3" and 7 1/3"

Check Bottom: 3 2/3" and 7 1/3"

### 1 Fourriner Watermark Stock

A true watermark shows a negative image in reflected light and a positive image in transmitted light; virtually impossible to fraudulently reproduce.

### 2 Visible and Invisible Fibers

Visible fibers are randomly embedded into the paper making duplication difficult. Invisible fibers can be seen under a blacklight.

### 3 Fugitive Inks

Chemical alterations may cause extreme discoloration; washing the check will likely cause details of the backer to fade or disappear.

### 4 Heat Reactive Seal

The stop sign on the front of each document contains a visible Security Heat Seal that will change color when rubbed.

### 5 UV Dull

Low reflectance in UV light minimizes interference with fluorescent printed features and optical reading.

### 6 Padlock Icon

Padlock Icon indicates document meets ANSI security guidelines. It also directs readers to the back of the check for a list of security features.

### 7 Security Checklist

Itemized review of features alerts your employees to security characteristics of the document.

### 8 Security Weave®

A patented intricate design that is extremely difficult to duplicate.

### 9 VOID Feature

The word VOID will appear in the Warning Box if the check is scanned or photocopied.

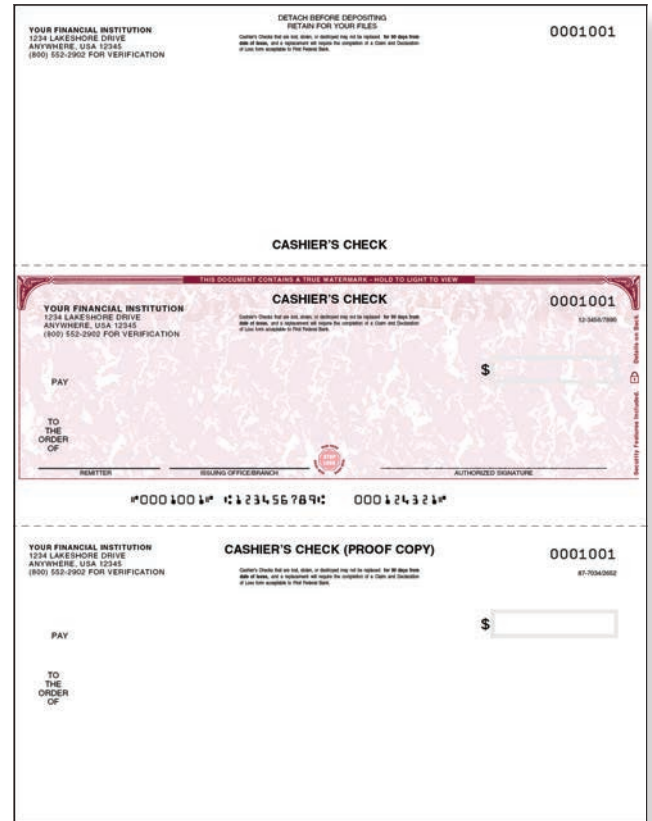

# Laser Checks Overprint

Custom Overprint in black magnetic ink to match your layout.  
Standard Laser Checks are available in Check Top, Middle or Bottom.

Tan Linen

Burgundy Marble

Reflex Blue Linen

All check styles may not be available and are subject to change without notice.

## Standard Laser Checks

Overprint in Black Mag

Single or double MICR line available

### 3 1/2" Check Style Perforations

Check Top: 3 1/2" and 7"

Check Middle: 3 1/2" and 7"

Check Bottom: 4" and 7 1/2"

### 3 3/8" Check Style Perforations

Check Top: 3 3/8" and 7 1/8"

Check Middle: 3 3/8" and 7 1/8"

Check Bottom: 3 3/8" and 7 1/8"

Optional bank and customer logo placements available.

### Preferred formats for receiving artwork:

1. .ai, .eps, or .pdf vector illustration
2. Uncompressed .tiff with a resolution greater than 300 dpi
3. .bmp with bitmap color profile greater than 300 dpi

A letterhead or envelope with a large clean logo will also work.

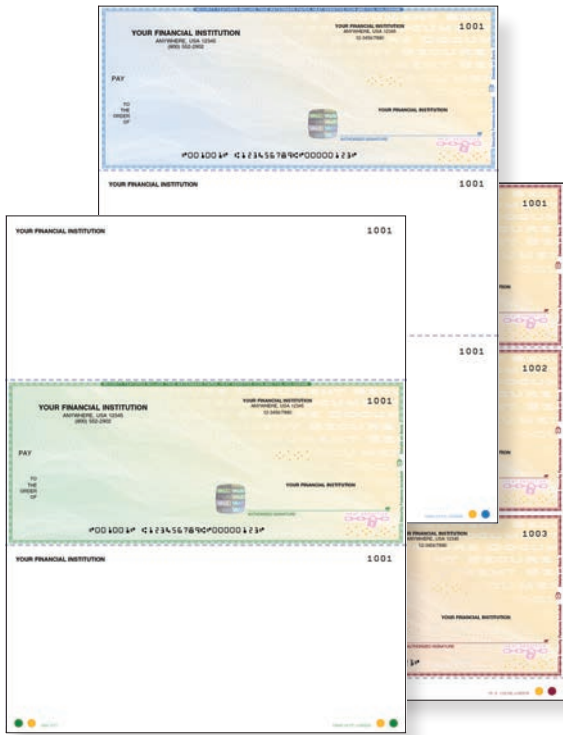

.jpg logos pulled from a website will generally not work. Logos must have a resolution greater than 300 dpi in order to work.

If no high quality logo artwork is available, our composition team can recreate your logo for an additional fee.

# Laser Checks Overprint

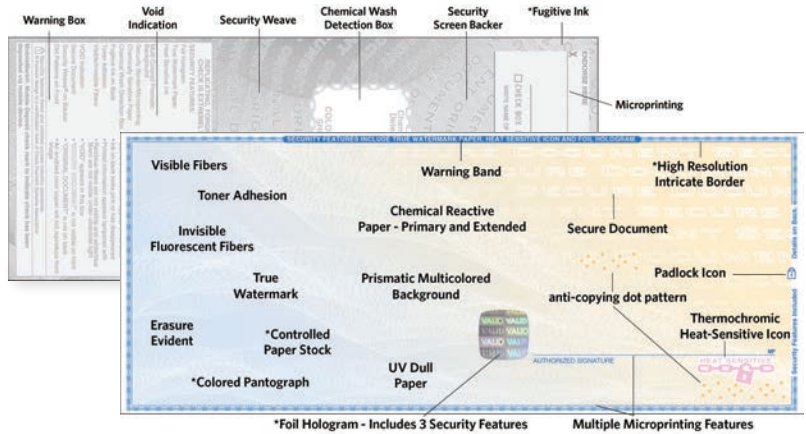

## High Security Hologram

Colors: Blue, Green, Maroon, Tan, Purple - Size: 8 1/2" X 11" - Available in Top & Middle - 3 1/2", 7" perforations.  
 Blue only - Check Bottom - 4", 7 1/2" perforations.  
 Blue, Green, Maroon, Tan, Purple - Draft - 3-to-a-page - 3 1/2", 7, 10 1/2" perforations.

Custom Overprint in black magnetic ink to match your layout.

Blank stock only available with control number printed on back.

The High Security Laser Check has 30 security features including the following to help your business from check fraud.

- \*Colored Pantograph:** If the unique colored background is not present, the document is not authentic.
- \*Controlled Paper Stock:** Controlled stock ensures the security of your product, as well as the paper supply itself, during every state of production.
- \*Foil Hologram:** A three dimensional graphic foil embedded in the check provides additional protection against duplication of the document.
- \*Fugitive Ink:** This chemical-sensitive ink used to print the check backer forms a detectable spot when chemical alteration is attempted.
- \*High-Resolution intricate Border:** Uniquely designed border is difficult to replicate and often distorts when copied.

# Starter Laser Checks

Starter checks, counter checks, or temporary checks are primarily used when a person opens up a new checking account. A bank or credit union offers counter check to customers when they run out of regular checks.

## Starter Checks - Size: 8 1/2" X 11"

Available with 1 Vertical perforation 2 1/2" or 2 Vertical perforations 2", 2 1/2".

Horizontal perforations 2 3/4", 5 1/2", 8 1/4" perforations.

IP14120-BE-1V Blue Linen - 1 Vertical perforation

IP14121-BY-1V Burgundy Marble - 1 Vertical perforation

IP14122-BE-2V Blue Linen - 2 Vertical perforations

IP14123-BY-2V Burgundy Marble - 2 Vertical perforations

# Security Features Comparison Chart

Security Features Comparison Chart		Snap-Out Check			Laser Check	
		Hologram Smart Document	Traditional Smart Document	Safety Document	Hologram Laser Check	Laser Check
<b>Authentic Hologram</b>	Harland Clarke's custom HoloStripe™ security feature provides a reflective, three-dimensional appearance that is easy to verify with the human eye, yet impossible to reproduce by ordinary copying or printing.	✓			✓	
<b>Chemical-Reactant Stains</b>	Stains react with common chemicals to readily show tampering.	✓	✓	✓	✓	✓
<b>Fourdrinier Watermark Stock</b>	A true watermark shows a negative image in reflected light and a positive image in transmitted light; virtually impossible to fraudulently reproduce.	✓	✓		✓	✓
<b>Fugitive Inks</b>	Chemical alterations may cause extreme discoloration; washing the check will likely cause details of the backer to fade or disappear.	✓	✓	✓	✓	✓
<b>Heat Sensitive Ink</b>	The back of each document contains a visible pad lock with heat sensitive ink that will change color when rubbed.	✓	✓		✓	✓
<b>High Resolution Border</b>	Detailed border distorts when copied, making it apparent to your employees that tampering has occurred. Also acts as an itemized checklist of security features.		✓	✓	✓	
<b>Interlocking Background Pattern</b>	Our interlocking step-and-repeat background pattern distorts when copied.	✓			✓	
<b>Micro-Print Signature Line</b>	The micro-print signature line reads "AUTHORIZED SIGNATURE," but when reproduced, type appears as a broken line.	✓	✓	✓	✓	
<b>MobileMark</b>	Mobile Deposit check mark to indicate check has been deposited via mobile device.	✓	✓	✓	✓	✓
<b>Padlock Icon</b>	Padlock Icon indicates document meets ANSI security guidelines. It also directs readers to the back of the check for a list of security features.	✓	✓	✓	✓	✓
<b>Prismatic Background Colors</b>	Attractive prismatic background pattern deters computer fraud and colors distort when copied.	✓			✓	
<b>Security Checklist</b>	Itemized review of features alerts your employees to security characteristics of the document.	✓	✓	✓	✓	✓
<b>Security Inks</b>	Tamper-resistant security inks and pastel colors guard against the use of solvents and color copying. Harland Clarke documents are made using special solvent-reactive inks that dissolve on contact with organic solvents.	✓	✓	✓	✓	✓
<b>Security Weave</b>	A patented intricate design that is extremely difficult to duplicate	✓	✓	✓	✓	✓
<b>UV Dull</b>	Low reflectance in UV light minimizes interference with fluorescent printed features and optical reading.	✓	✓	✓	✓	✓
<b>Visible and Invisible Fibers</b>	Visible fibers are randomly embedded into the paper making duplication difficult. Invisible fibers can be seen under a blacklight.	✓	✓		✓	✓
<b>VOID Feature</b>	The word VOID will appear in the backer Warning Box if the check is scanned or photocopied.	✓	✓	✓	✓	✓
